

READY

Ready to install like plug n play, no need to use additional minerals or backfill compound.

HEALTHY

Healthy current carrying capacity
Tested at CPRI, Bangalore.

RESEARCH

Research based design like well-trained, bodyguard to provide safe earth path for system or system protector.

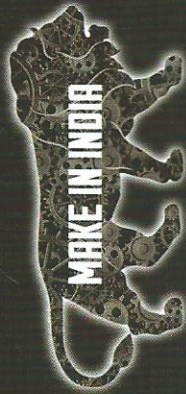

EXTENDABLE

Extendable in length by adding jointer, ShockPro can be extend up to N numbers for variable applications.

Shock pro

World seems to be smaller place. Almost everybody is using smart gadgets or technologies in home, Industries, data centres, solar parks, hills etc. for comfort and efficient productivity, and earthing is the measurements for making them safe from electricity fluctuations.

INNOVATION

Changing technology and new innovations in electrical engineering are crucial for the growth of the industry and Updating the technology is an essential part of the power sector. Keeping this in mind SHOCKPRO has been developed as an innovation in earthing system.

ADD MORE, GET MORE

SHOCKPRO gives you freedom to install numbers of SHOCKPRO in one earth pit (extendable) to match your requirements. Thanks to jointer facility between two SHOCKPRO, now no matter your load is domestic or industrial. Just add more get more.

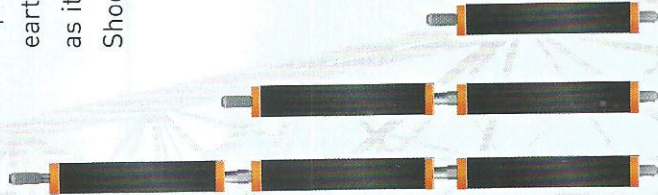

A standard and uniform packing helps easy to transport and handling.

Shockpro has the right standard-compliant, long lasting earthing system for every application.

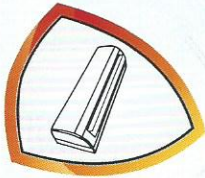

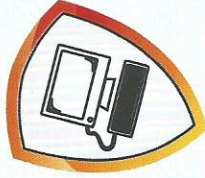

- Tested at CPRI-Bangalore for SCT test.
- Back fill compound is also tested for ROHS.

Jointer cum Terminal : Unique terminal cum jointer provides multi-function. It works as terminal - at the top of Shockpro for measurement of earthing resistance at any time as well as it works as jointer for extension of Shockpro.

DOMESTIC APPLICATION

There are many electrical dangers in everyday in homes that put ourselves, and our loved ones at risk. Undertaking electrical earthing work on your own, or hiring the wrong product for the job can result in major property damage, or even loss of life. It's time to renovate our thinking instead of our homes. Upgrade electrical safety with installing ShockPro.

INDUSTRIAL APPLICATION
