E-Series-Ex9™

Inspired by automobiles, the Ex9 is driven by the need for performance and elegance. With an aerodynamic design and automotive finish, the Ex9 delivers more air with less air cutting noise. Featuring a high torque 16-pole motor, it delivers air at the rate of 240 CMM.

ELEGANT DESIGN: Inspired by automobiles, the fan carries a twin-tone look, adding to the elegance of your home.

AUTOMOTIVE FINISH: A three layered automotive finish gives the fan a stunning radiant finish, protecting from dust and corrosion.

HIGHER AIR DELIVERY: Experience more air with the fan's aerodynamically designed blades which lead to air delivery of 240 CMM at the rate of 280 RPM.

SLEEK CANOPY: Elegant design matched with the splendour of aesthetically crafted sleek canopies.

E-SERIES-EX9™

AUTOMOTIVE INSPIRED FANS FROM USHA

The Ex9 range of fans are more than just a fan. It is a technology that delivers more in every aspect. It's fluidic and seamless design ensures high air delivery. It's high torque and large motor housing deliver efficient performance. Last but not the least, its differentiated colour and automotive-inspired mettalic finish set the category apart from the rest. Driven to ensure performance and quality. The Ex9 range is a glimpse into the future of fans.

FEATURES OF E-SERIES:

The Ex9 range of fans is inspired by the technology, Aesthetics, finish and quality of high end automobiles. With its fluidic, seamless yet edgy design, differentiated colour and finish, the Ex9 is the future of fan design and performance.

Styling

- Aerodynamic design
- Automotive inspired mettalic colours and finish
- Large motor housing

Performance

- High torque motor
- High air delivery
